PLAYLISTS

CURATED LIVE MUSIC FOR REFINED EVENTS

No list of choices. A musical world.

Our playlists are not a menu to choose from.
They offer a glimpse into the style, atmosphere, and versatility of GetSomeWine.
With every booking, we take full responsibility for the musical flow of the event.
Based on timing, audience, location, and energy, a live experience emerges
that naturally enhances each moment.
Effortless. Natural. Just right.

OUR APPROACH

One vision. Three levels of guidance.

Every event requires a different degree of personal alignment.
That is why we work with three clear forms of musical guidance —
from fully effortless live curation to an in-depth, tailor-made
music concept.

ONE VISION. THREE LEVELS OF GUIDANCE.

Curated by GetSomeWine

Completely effortless. Pure trust.
We shape repertoire, structure, flow, and energy throughout the entire event.
You simply share the context; we translate it into a coherent live experience
that organically evolves with every moment.
This is our standard approach —
and the most elegant form of musical guidance.

Guided by You, Curated by Us

Personal accents within our artistic direction.
You may share a few favorite artists or emotional directions.
With a small number of carefully selected inspirations,
we shape the full musical flow of the event.
The result is a refined balance between personality and serenity,
without detailed discussions or custom setlists.

Bespoke Music Design

Fully tailor-made. Designed down to the smallest detail.
When music takes on a pronounced dramaturgical role,
we offer an exclusive custom trajectory with personal guidance, including:

- artistic intake and concept analysis
- musical structure for each key moment
- focused repertoire development
- timing and atmosphere direction throughout the event
- personal consultation and follow-up

This trajectory takes place through a private, paid music consultation
and represents our most refined form of collaboration.

WEDDINGS & CEREMONIES

Within a wedding celebration, the ceremony requires
a particularly personal and emotional approach.
For this reason, we provide a separate and carefully designed framework,
independent from the musical guidance of the rest of the event.

Our full vision and possibilities for ceremony music
can be found in our dedicated wedding brochure.

OUR PLAYLISTS AS A MUSICAL WORLD

Our playlists reveal the breadth of our musical universe
and provide direction in atmosphere, color, and energy.
They serve as inspiration and insight,
while we always shape the final live structure coherently
within our artistic direction.
